

# Have you got what it takes to save a life?

**Living Donors donated 856 organs last year.**

**More patients could be helped by an organ given by a living donor, as only 50% of patients will receive a kidney transplant after 2 years on the waiting list.**

The National Kidney Federation (NKF) is committed to save more lives by actively encouraging others to donate organs to friends or relatives in need

***Find out more by phoning the National Kidney Patient's Helpline:***

**0845 601 02 09**

***Or by visiting the Living Donor Information on the NKF website:***
